Advancing your education to be a force for good demands dedication and guidance. FIU Online’s Master of Public Health (MPH) is a catalyst for practitioners looking to sharpen their skills and scholars gearing up for a doctoral degree—on a schedule that works for each student.

Students investigate the epidemiology or distribution of diseases, social determinants of health among diverse populations, as well as the impact of environmental health, while learning to use their knowledge to influence policy. Experts in public health, who work at the forefront of research, scholarship and community programming, teach from their posts at Florida International University, a top-tier, public institution with the highest Carnegie classification for Institutions of Higher Learning.

This degree is a program of distinction among public health master’s programs as it is the only generalist MPH offered online within the Florida State Univeristy System. It is affordable, flexible and tailored to your needs and interests.

ADMISSION REQUIREMENTS

- Online graduate application and $30 (USD) nonrefundable fee.
- A bachelor's degree or equivalent from a regionally accredited U.S. college or university.
- A minimum 3.0 GPA in the last 60 credits of upper-level undergraduate coursework.
- Submission of official GRE scores that are less than five years old. The admissions committee may exempt the applicant from submitting a GRE score if the applicant has submitted MCAT or DAT scores, has earned a Ph.D., or is a practicing physician, dentist, pharmacist, or an individual of an equivalent background.
- A current resume.
- A written statement of purpose.
- Three letters of recommendation.
- Official transcripts from all colleges/universities previously attended (undergraduate and graduate). Transcripts must be sent to FIU directly by the institution(s) in electronic format or mailed in a sealed institution envelope.
- International students: official TOEFL/IELTS scores. International applicants must have a WES-verified institution and also recognized in its own country [GMT] as preparing students for further study at the graduate level.

Meeting the minimum requirements does not guarantee admission to the program.
