30 CREDITS REQUIRED

$25,000 TUITION

START FALL, SPRING, & SUMMER

FIU Online
Florida International University
Florida International University’s Online Master of Science in Engineering Management offers a fast-track to engineering leadership by developing managers who understand both the engineering and business aspects of technology. With FIU’s fully online program, you can advance your engineering career with our flexible program that combines technical, law and business courses. The customized, state-of-the-art applied management curriculum includes courses in Total Quality Management (TQM), engineering project management and business law taught by distinguished faculty experts. Core engineering management courses equip students with the ability to exercise sound judgment on the legal aspects of an engineering issue, the body of total quality management (TQM) knowledge required for the Six Sigma Black Belt certification, and the body of engineering project management knowledge required for the Project Management Professional (PMP) certification.

- Systems engineers in high demand in logistics
- Specialized track with technical focus
- Top 10 percent of logistics engineers earn more than $110,000.
  *Bureau of Labor Statistics
- Customized, state-of-the-art applied management curriculum
