120 CREDITS

$212.71 IN-STATE COST PER CREDIT

$329.77 OUT-OF-STATE COST PER CREDIT

FIU | Online
Florida International University
ABOUT THE PROGRAM

FIU is the first university in the nation to offer a bachelor’s degree in the Internet of Things and, as such, is at the forefront of research regarding the management of these devices and their growing network of communication. FIU’s fully online bachelor’s degree in IoT offers students a well-rounded skill set that will make them highly competitive in today’s global, technological market as it combines software training with programming in addition to hardware expertise. Students learn all of the skill sets needed to be prepared to find jobs as hardware engineers, working on microcontrollers and sensors; software engineers, programming smart devices; wireless communication specialists, focusing on how the devices communicate with each other; and cybersecurity professionals, protecting the data and keeping consumers safe from hackers.

The study of the IoT is one of the fastest growing and innovated fields in engineering. Companies like Amazon, IBM, HP, and more are all looking to hire individuals knowledgeable in the field of IoT to help address this emerging field and prepare them for what’s to come.

APPLICATION CHECKLIST

Freshman Students
- Online Application with nonrefundable fee of $30 (U.S. dollars).
